Best 10 Cryptocurrencies to Invest in After Selling Your Terra Coins

With Terra crash, crypto investors are wondering which cryptocurrencies will be a better buy now.

Crypto investors are nervous amidst the recent [bear market](#) and crypto crash such as Bitcoin and [Terra LUNA](#). Despite the volatility, several crypto investors are staying on the lookout for the cryptocurrencies that are coming out as a winner in such a crucial time. They desperately need to drive profits in their [crypto wallets](#) to earn some livelihood in the highly volatile crypto market. Though the market is seeing its worst trading downturn, crypto fanatics did not lose hope.

This article presents best 10 [cryptocurrencies](#) to invest in after selling your Terra coins. Let's start it.

Ethereum

Ether's current dive in value after Bitcoin's crash has shocked investors. Even as crypto is recovering from its lowest value, investors are considering alternate investment options. Even though the ETH token is at an exponentially volatile place, [Ether](#) can be a far better option for investment than Terra. The launch of the ETH 2.0 upgrade is also causing some stir and making investors quite excited about Ethereum's future.

Tether

Tether was one of the biggest rivals of TerraUSD and sits at the top of the stablecoin pyramid. Tether is considerably more trustworthy than Terra. Tether fell just two hours after UST fell, but its value [rose back up](#) within an hour. While it still has not reached full parity with the US dollar, it has still effectively maintained its position around that level.

The Sandbox

The Sandbox is another metaverse cryptocurrency that has been soaring lately. Even though the crypto market is in a vulnerable state right now, the SAND token has maintained a consistent reputation of being a profitable investment due to the rising popularity of the metaverse.
