Is BTCC Safe?

Since its foundation in 2011, BTCC has proven to be a safe crypto exchange as it has recorded no report of fraudulent activities involving the platform's backend or users' accounts. BTCC crypto trading platform lays great emphasis on security, which can be evidenced by implementing compulsory know-your-customer (KYC) and anti-money laundering (AML) policies. Besides, BTCC also provides added security measures like two-factor authentication (2FA) for actions like withdrawals.

Is BTCC Legit?

With a long operation history of 13 years, BTCC boasts an impressive user base and a stellar track

record. As one of the oldest exchange around the world, BTCC puts a strong emphasis on conducting business in various countries and regions under the premise of lawfulness and compliance. Currently, BTCC has obtained regulatory licences in a variety of countries.

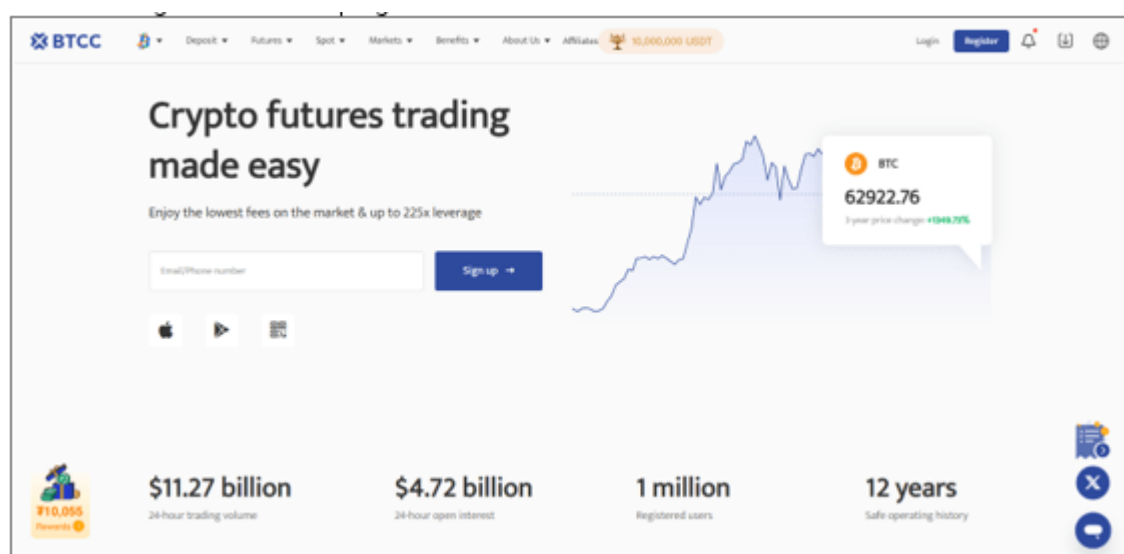

Can Canadian Investors Trade Cryptos on BTCC?

Of course, BTCC is legit in Canada as it has already received a crypto licence issued by the Financial Transactions and Reports Analysis Centre of Canada (FINTRAC). Canadian traders can log in BTCC to trade cryptos with highest security level and most competitive fee.

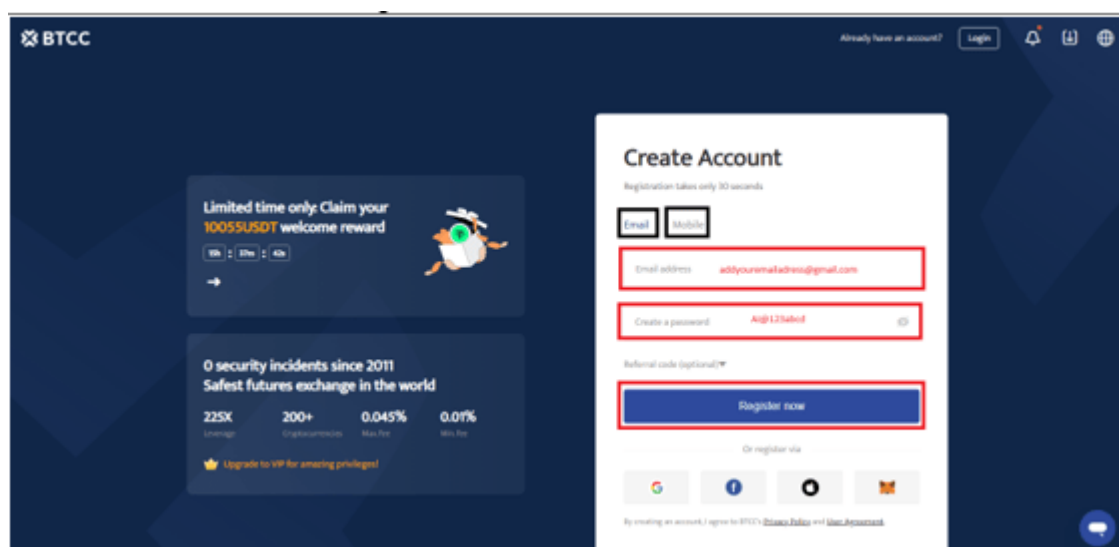

How To Open a BTCC Account?

Opening an account on BTCC is quite easy.

Firstly, you need to click the “register” button on the right corner of [BTCC homepage](#).

Then, you can create an account using an Email ID or Mobile Number.

How to Trade Crypto Futures on BTCC?

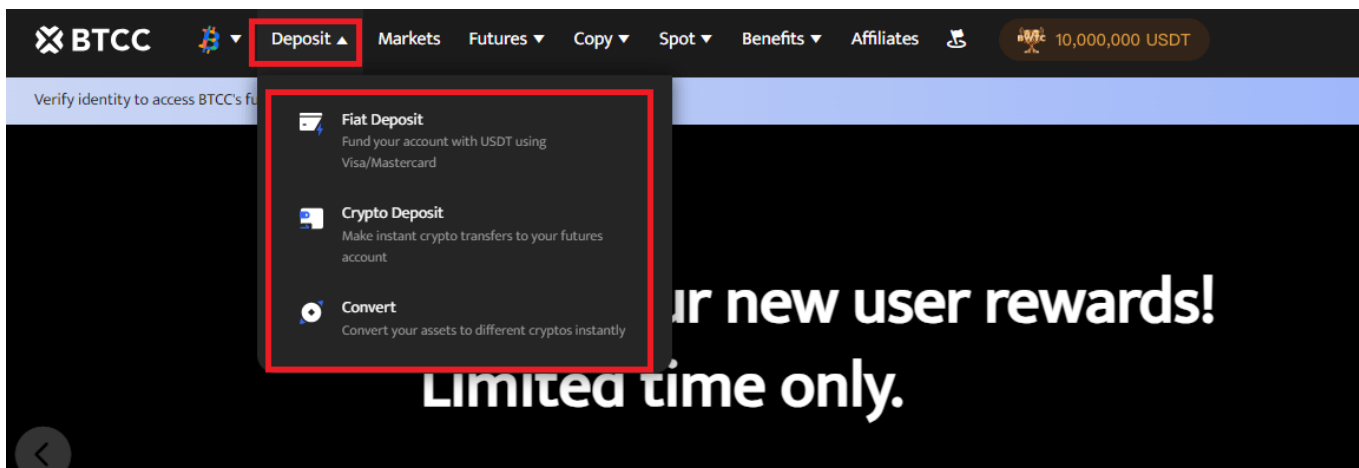

BTCC offers Perpetual Futures contracts with a leverage of up to **500x**, you can buy over 300 cryptocurrencies on BTCC at the most competitive price and highest security.

The following sets forth the guidance for trading futures on cryptocurrency exchange [BTCC](#):

Step One: go to the [BTCC homepage](#) and log in to your BTCC account. If you do not have an account, you need to register first.

Step Two: go back to the [BTCC official homepage](#), choose “Deposit”, and then fund your account with your preferred method (fiat deposit, crypto deposit or convert).

Step Three: go back to the BTCC official homepage, choose “Futures” - “USDT-M Perpetual Futures Contract”, and find the crypto trading pair.

Step Four: choose the contract trading order type. Futures contract orders on BTCC platform are divided into market orders, limit orders and SL/TP orders.

- **Market Order:** users place orders at the best price in the current market to achieve fast trading.
- **Limit Order:** Limit orders are a type of order to buy or sell futures at a price more favourable than the market price. When you buy at a price lower than the market price or sell at a price higher than the market price, the order will be in the form of a limit order.
- **SL/TP Order:** SL/TP orders are a type of order to buy or sell futures at a price less favourable than the market price. When you buy at a price higher than the market price or sell at a price lower than the market price, the order will be in the form of a SL/TP order.

Step Five: adjust the leverage multiple.

Please keep in mind that operating leverage carries the risk of liquidation. Leverage should be adjusted based on your financial status and risk tolerance.

Step Six: choose the lot size and set the SL/TP price .

Step Seven: after setting the basic data information, users can choose to buy (open long) or sell (open short) after entering their ideal price. Traders should remind that the price cannot be higher or lower than the highest buying price or lowest selling price of the platform.

Step Eight: click the buy or sell button, and the crypto futures contract order is completed.
