BTCC vs. CoinJar

Next, this article will explore and compare BTCC and CoinJar, two exchanges with over decade-long history, from major metrics, including supported cryptocurrencies, fees, security, features, customer services, service scope and easy of use, thus assisting you to pick the best exchange for your need.

BTCC vs. CoinJar

	BTCC	CoinJar
Supported Cryptocurrencies	300+	Only 50+
Fees	Compared with other major crypto exchanges, the fees charged by BTCC is relative low, such as only charging 0.06% for both takers and makers	Compared with other major exchanges, CoinJar charges relative low fees, such as zero deposit or withdrawal fees in selected fiat currencies, takers and maker fees ranging from 0.02% to 0.1%
Security	Industry-leading security, with no reported hacks or security breaches to date	High security as it employs several measures like multi-level data encryption, ongoing security audits and institutional-grade organisation security
Features	Provide a large number of service, including spot trading, futures trading, and mining pools	Compared to other exchanges, CoinJar's feature set is limited, providing fewer coins and less advanced trading options
Customer Service	Offer 24/7 excellent customer service via email and live chat, provide demo trading and rich learn resource for newcomers	There are still room for improvement in terms of customer service, due to its absence of investment advice or demo accounts, limiting educational resources for users
Service Scope	Offer service in more than 100 countries and regions with more than 6 million registered users	Offer service to 600,000+ customers, CoinJar is only available to investors in the United Kingdom and Australia
Ease of Use	Intuitive interface, easy for both newcomers and experienced traders	Offer a beginner-friendly interface tailored to newcomers in the crypto space, but the platform may not cater to the needs of seasoned traders looking for advanced features

How to Trade Crypto Futures on BTCC?

BTCC offers Perpetual Futures contracts with a leverage of up to **500x**, you can buy over 300 cryptocurrencies on BTCC at the most competitive price and highest security.

The following sets forth the guidance for trading futures on cryptocurrency exchange [BTCC](#):

Step One: go to the [BTCC homepage](#) and log in to your BTCC account. If you do not have an account, you need to register first.

Step Two: go back to the [BTCC official homepage](#), choose "Deposit", and then fund your account with your preferred method (fiat deposit, crypto deposit or convert).

Step Three: go back to the BTCC official homepage, choose “Futures” - “USDT-M Perpetual Futures Contract”, and find the crypto trading pair.

Step Four: choose the contract trading order type. Futures contract orders on BTCC platform are divided into market orders, limit orders and SL/TP orders.

- **Market Order:** users place orders at the best price in the current market to achieve fast trading.
- **Limit Order:** Limit orders are a type of order to buy or sell futures at a price more favourable than the market price. When you buy at a price lower than the market price or sell at a price higher than the market price, the order will be in the form of a limit order.
- **SL/TP Order:** SL/TP orders are a type of order to buy or sell futures at a price less favourable than the market price. When you buy at a price higher than the market price or sell at a price lower than the market price, the order will be in the form of a SL/TP order.

Step Five: adjust the leverage multiple.

Please keep in mind that operating leverage carries the risk of liquidation. Leverage should be adjusted based on your financial status and risk tolerance.

Step Six: choose the lot size and set the SL/TP price .

Step Seven: after setting the basic data information, users can choose to buy (open long) or sell (open short) after entering their ideal price. Traders should remind that the price cannot be higher or lower than the highest buying price or lowest selling price of the platform.

Step Eight: click the buy or sell button, and the crypto futures contract order is completed.
