## **What is \$JHH Coin?**

Built on the Solana (SOL) network, \$JHH is created by an anonymous community of crypto enthusiasts to pay tribute to Jen-Hsun, founder and CEO of NVIDIA. Besides, \$JHH is also regarded as a celebration of Jen-Hsun Huang's many contributions to the world of technology, AI, and gaming.

"\$JHH is a reflection of how Jen-Hsun has touched the lives of so many in the tech community. By creating this coin, we're not only showing our appreciation but also building a legacy that continues to inspire future generations," said Tuekin Sahn, a representative of the community initiative.

In addition to serving as a tribute to Jen-Hsun, the \$JHH community has expressed a deeper desire to create its own crypto ecosystem that is available to everyone. Recognizing the growing inaccessibility of NVIDIA stocks to the wider public, the JHH community launched the coin, aimed at empowering fans of Jen-Hsun Huang to participate in crypto markets at the entry-level.

The contract for \$JHH has been renounced and locked, assuring participants that all coins are available in the marketplace, thereby bolstering the trust of prospective investors. This framework underscores the community's unwavering dedication to transparency while fostering a secure landscape conducive to investments.
